

Project Overview

I am interested in partners of artists as the ones who are often depicted or referenced or inspire work, but also those often implicated in late night installations, rehearsals, and various and unpredictable activities.

For each subject I am looking for three photographs to use as reference images to paint portraits from (the photos themselves will not be displayed) any further information subjects wish to provide about themselves and their experiences would be gathered together in the statement document and checked through with participants beforehand.

I like to ensure the people I paint are happy with the process and their representation - I hope to achieve this in part by asking for subjects to provide self selected-photos.

(Above details from *Untitled (Portrait of Ross in L.A.)* - Felix Gonzalez-Torres, *Tête de Femme* - Pablo Picasso, *Bent figure of a woman (Sien)* - Vincent van Gogh.)
