

## Proposal for exhibitions 2010

Papakura Art Gallery sees all exhibitions as a partnership between the gallery and the artists with the aim of presenting the best possible exhibition to the public of the district. There are 20 exhibition slots available per year and we are seeking to have a broad range of exhibitions.

It is for this reason that all artists and exhibitors need to present the art gallery with a exhibition proposal. This is a very simple process and the Gallery Manager is happy to assist you in developing the proposal.

The proposal allows the gallery to have all available information on the type of exhibition you are proposing and the resources you may need. It also allows a review to be made on the best time for your exhibition and what could be a sympathetic exhibition for other spaces in the gallery.
